SUMMARY

Software Engineer skilled in Java, React.js, Node.js, Spring Boot, REST APIs, MySQL, MongoDB, and AWS with experience developing full-stack web applications, API integration, and responsive user interfaces.

EDUCATION

B.Tech - Computer Science and Business Systems	2022 - 2026
K.S.R Rangasamy College of Technology, Anna University	CGPA: 8/10

SKILLS

Technical Skills	Java, JavaScript, React.js, Node.js, Spring Boot, REST APIs, AWS, MySQL, MongoDB
Frameworks	React.js, Express.js, Spring Boot, Bootstrap, Tailwind CSS
Core Strengths	Full-Stack Development, API Integration, Database Management, Cloud Deployment

EXPERIENCE

Trainee Associate Software Engineer	Jan 2026 – Apr 2026
Mphasis Limited	Chennai, India

- Developed and maintained 2+ responsive web application modules using Java, React.js, REST APIs, and Git.
- Collaborated with 2+ cross-functional team people to optimize application status, reduce page load time by 20%.
- Resolved 30+ software issues through debugging, API integration, and Agile sprint-based development practices.
- Designed and implemented a structured API testing framework that streamlined deployment processes; achieved a 25% increase in application maintainability, allowing for quicker updates and reduced downtime for end-users.

Junior Software Developer Intern	Jan 2024 – Mar 2024
Grow Technologies Pvt Ltd	Salem, India

- Built 10+ responsive frontend components using React.js and Bootstrap to improve UI consistency.
- Assisted in backend development using Node.js and MySQL to manage and process 1,000+ records efficiently.
- Reduced application errors by 15% through software testing and cross-browser compatibility improvements.
- Collaborated with developers to implement new features and improve application responsiveness across devices.

PROJECTS

Campus Marketplace System. Built a full-stack e-commerce platform using React.js, Spring Boot, MySQL, REST APIs, and AWS with 300+ product listings, admin moderation, CRUD operations, secure authentication, and responsive user dashboards. [🔗](#)

RiyoDropTaxi. Developed a taxi booking application using React.js, Node.js, MongoDB, REST APIs, and AWS supporting 1,000+ simulated ride requests with ride scheduling, authentication, responsive dashboards, booking workflows, and real-time ride management. [🔗](#)

CERTIFICATIONS

DSA - Udemy	React.js and Spring Boot Development - Udemy
Cloud Computing & AWS - NPTEL	Web Development - Infosys

PUBLICATIONS

- Published research work titled “A Secure and Anonymous Cloud Data Sharing Framework with Attribute-Based Proxy Re-Encryption” focusing on secure cloud computing, data privacy, encryption, and access control mechanisms. [🔗 Publication Link](#)
